Branch General (Education)

Subject Monthly grant of Rs 100 to the Industrial School at Hassa

Letter No $\frac{8253}{310}$ dt 5th March 1904 from the Dpt of Edn in Mysore

1. Mr. Cross, the Head Master of the High School at Hassan is also the Superintendent of the Industrial School at the place At present Govt. pays a sum of Rs 1200 per annum in aid of this Industrial School (Vide G.O. No $\frac{10927-8}{Ed\ F\ 26-98}$ dt 8/3/1898) This amount is not drawn in a grant in-aid bill but the Supdt is permitted to draw Rs 110 per mensem on an Establishment bill, the excess amounts drawn over Rs 1200 being Repaid into the Treasury the Course of every year

Flag A
This is not
readily traceable
Kme
13/5/07

D/C now recommends that the practice of drawing Rs 100 on an Establishment bill may be discontinued from 1st July 1904 and that according to the principles laid down in G.o No 11666-77 dr Ed F dr 96 7/4/03 a monthly grant in aid of Rs 100 may be paid to the Supdt from the same date on the conditions specified (in the D/C's letter)

2 He also requests that the School may continue to be located on the premises of the High School and that the buildings used for the Industrial School may continue to be maintained by the D/W as ordered in G.o No Camp 250-2 dr 24/6/1900

3. The effect of the proposal is that the sum of 1200 has paid to

to the School will be converted into a monthly grant of Rs 100 No additional cost is involved

4 - The cost of Special instruction in the State (Industrial Engineering and Technical) is debited to the "Local Funds General and is provided in a Separate Budget (Budget Estimate of the Industrial & other Special Schools.) But the grants paid to certain Industrial Schools in number including the ~~one~~ mentioned above, are now debited to the State Fund Budget If approved the cost on account of these grants may be transferred from the State Funds to the "Local Fund Genl to Secure uniformity

Subd per orders will be issued

Ref 19/3/04

I

5 I don't quite understand the reasons for the changes proposed by the Insp.r General, and what useful object is gained thereby. He suggests

II

that the Supt is to bear the losses incurred, if any, and to take the profits himself seems to be inappropriate in the case of a Supt who is a Govt servant like the Head Master of the Harran High School

III

6 The suggestion made on the previous page of this Note seems also not free from objection as it is not clear why a charge borne by State Funds should be transferred to the Local Funds General which have to meet other important charges relating to works of public utility.

Can the Dy Secretary throw any light on these points?

29/3/04

Read 30/3/04

P. Do

I. The advantages of the proposed change are

1) Simplification of procedure
Instead of drawing Rs 110 every month and then paying back 120 Rs (at Rs 10 per mensem) into the treasury during the course of the year, the Supdt will be given a fixed grant which he can draw upon at Rs 100 per month

II) Greater scope & freedom of action
At present, the drawing of Rs 110 must necessarily be dishonest in scholarship and pay and he has nothing left to lay out other ways, of any ~~xxxx~~ calculated to develope the usefulness of the school under the proposed arrangement, the Supdt can lay out (Rs 100 - 50 Rs) Rs 50 in the best way he can think of

III) No departure from sound principle is contemplated. The proper attitude for the State to assume in regard to industries & industrial institutions is, to refrain from assuming the direct management and control when private management assisted by material & moral help from Govt will equally well, & to diminish of its responsibility already

assumed in the case of institutions which have been placed on a sound basis & can without danger, to efficiency be entrusted to private agency. This apparently is the case with the Industrial School at Chamiers which moreover as the Inspection General says to all intents & purposes an aided institution." [If an instance for British India were required, I would refer to the transfer to a private Company of the Alumnus Branch of the Madras School of Arts mentioned further back]

II. As a matter of fact, the Superintendent is even now solely responsible for, & entitled to, all losses & gains from the Industrial School & has nothing to do with the same. A statement is annexed showing the realisations for the past six years, & the cost to Govt., which is a fixed grant. No change, in this respect therefore contemplated

III. The cost of industrial education is a proper charge upon Local and Municipal

The so-called Industrial Schools ~~fund~~ budget is ~~[illegible]~~ a Local Funds General budget, & it is for this fund that the Annual & initial charges of Industrial & Weaving schools sanctioned since the issue of G.O. no 1406 S-11 dt 7-4-[illegible] are being invariably debited. The fact that the grants to these schools mentioned in para 4 of the G.O. referred to above are made from State funds being an exceptional one, it was therefore suggested that the grant to the Harsan Industrial School may be debited to P.W. General

Compare in this connection, the following extract from a note of the Dewan (of the 6th October 1902), on the establishment of weaving schools

"About 50,000 Rs of the P.W. General are being utilized by the D.P.W. for bridges and other such works. No balance available cannot be better spent than for the purposes of developing industrial and practical education"

~~[illegible]~~

A statement showing the State of the fund is put up; this shows that it can well bear the transfer of the grant in-aid of Rs 1,200 per annum now being given from State funds

I believe that the effort given will be towards the improvement of the aided school as this demands & will not such clash with the duties as the master of the High School. The former will create a monetary interest in them - the object with the present practice of creating the scholarship a fort institution - or object a Board of Trustees. Would it not be well to ask him some questions with regard to the aided school & return the papers

LL 6/6/04

In the circumstances stated by the I Gl, the present annual grant of 1200 paid to the Industrial School at Hassan will be converted into a monthly grant of Rs 100 with effect from 1st July 1904, the continuance of the grant being subject to the Several

Conditions specified
in the letter read above.
The Supt is requested to
Submit at the end of
every year a detailed
Report showing the progress
of the Schools and its
usefulness to the public

[Edn. SI.]

No. 8255/310

From

H J BHABHA, Esq., M.A.,
Inspector General of Education in Mysore,

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE,
Bangalore, 5th March 1904

To L Anantaswamy Rao Esq BA,
Offg Secretary to the Government of Mysore,
General and Revenue Departments,
Bangalore.

SIR,

I have the honour to inform you that at present the Hassan Industrial School is to all intents and purposes an aided institution. The Superintendent who is also Head Master of the High School, Hassan, is permitted to draw Rs. 110 a month on an establishment bill or Rs 1320 a year He has to repay into the Treasury amounts during the course of the year which bring the annual cost to Government within Rs. 1200. The annual cost to Government was restricted before 1st March 1898 to Rs. 1000 a year, but from that date the grant was increased to Rs. 1200 a year by Order No 1027-8 / Ed 26-96, dated 8th March 1898 The school has been conducted

economically and satisfactorily by Mr Cress, and a majority of the pupils of the Industrial School are pupils of the High School

2 At present the bill for Rs 110/- a month allowed to be cashed at the Treasury is for the following establishment

	Rs
Carpenter Mastry	27
——— Do	25
Watchman	2
Office Contingencies	2
Writer and Store Keeper	7
Schol Carships	47
Total	Rs 110

24/25

3 I recommend that the practice of drawing Rs 110 a month on an establishment bill from the Treasury every month may be discontinued with effect from 1st July 1904, and that in accordance with the principles laid down in Order No 14668-77-Ed 7 4-96 dated 7th April 1903, a monthly grant in-aid of Rs 100 may be paid to the Superintendent from the same date on a grant-in-aid bill on the following conditions

(1) That an establishment costing not less than Rs 110, of which Rs 50 shall be

spent on scholarships, shall be maintained

(2) That at least the same number of industries as are at present taught, namely, carpentry, cabinet making, and blacksmiths' work, and occasionally rattan work and repairing and painting of carriages shall be taught.

(3) That if the Superintendent who is Headmaster of the Hassan High School is transferred in future from Hassan, he shall be responsible for all debts incurred upto date of transfer and entitled to take all outstandings due on date of transfer

(4) That the present stock of tools Carpenters' benches and other working implements of the school apart from materials shall be valued and the valuation recorded. Any additions to the working implements and stock over and above this valuation which may be made hereafter shall be paid for by the next Superintendent on taking charge. The next Superintendent shall also pay for all stock of materials on hand on the date of taking charge

(5) That accounts shall be kept in forms and books approved by the

Department

would recommend that the school may continue to be accommodated on the premises of the Hassan High School, and that the buildings used for the Industrial school may continue to be maintained by the D P W as ordered in Government Proceedings No 250-2 dated Camp Mysore 28th June 1900

5 By the proposed arrangements the Superintendent will have, subject to the above conditions, a free hand to develop the school as much as he can, and it will be to his interest to make the school as profitable as possible to himself. At the annual inspection it will be necessary to see that all the conditions laid down above are fulfilled, the continuance of the monthly grant being dependent on such fulfilment and the satisfactory condition of the school

21/21

I have the honour to be,
Sir,

No 11174/476 Re. Camp ~~Bangalore,~~ Mysore, 25 June ~~190~~ 1904

From

H J BHABHA, ESQ., M A,
Inspector General of Education in Mysore

To

B K Venkataravaradayyangar Esqre
Secretary to the Government of His
Highness the Maharaja of Mysore
in the General and Revenue Depts

SIR,

In continuation of my letter No 8255/310 of 5 March 1904 I have the honour to inform you that since the date of that letter Mr Cress the Superintendent of the Hassan Industrial School in his letter No 36/B dated 24 May 1904, of which a copy is herewith enclosed, submits a remonstrance against the proposal to give a monthly grant-in-aid of 100 Rs to the Hassan Industrial School Mr Cress was consulted before the proposals contained in my letter quoted above were submitted to Government and he had expressed his full acceptance of these proposals in his letter dated 8 June 1903 as he has changed his mind however at present and doubts the possibility of conducting the

Industreal School successfully with a monthly grant of 100 Rs I beg that the present arrangements by which the Superentendent draws Rs 110 a month on an establishment bill but repays into the Treasury amounts during the course of the year which would bring the annual cost to Government within Rs 1200 may be allowed to continue as heretofore

No $\frac{36}{B}$ Hassan 24 May 1904

Sir

I beg respectfully to point out that a grant of Rs 100 a month will not meet the demands of the Industrial School and to depend on sale proceeds of furniture is an uncertain item often causing much anxiety of mind, and with the opening of other Industrial Schools, the income from this source must necessarily decrease Also by Docket No a 4889 of 1st November 1890 Government then sanctioned a monthly expenditure of Rs 120 and since then the school has much extended

The cost of the regular establishment is as follows

1 Head Carpenter or Foreman	Rs 30-0-0
1 Assistant Carpenter	20-0-0
1 Blacksmith	25-0-0
1 Caneman at least	12-0-0
1 Cooly to turn lathe	7-0-0
1 Polisher	7-0-0
1 Writer. storekeeper & bill collector	7-0-0
	108-0-0

Leaving nothing for scholarships

In addition the following have to be provided for

Sawyers	Rs 25-0-0
Timber about	50-0-0
Small stores	50-0-0
	125-0-0

I have the honour to be
Sir,
your most obedient servant
(Sd) Samuel Cress
